

Analysis + Consulting

We are your competent partner for technology assessment, techno-economic analyses, life cycle analyses, market analyses and project management.

Since 1926, DECHEMA, an independent professional society, has promoted technical-scientific exchange in order to transfer scientific findings into commercial applications. This experience and expertise gathered from numerous R&D&I projects is now bundled under the umbrella of "DECHEMA Analysis + Consulting".

The product portfolio of DECHEMA A+C – as it is abbreviated – ranges from technology assessment and market analysis to life cycle analysis. Our experts within DECHEMA e.V. are available to customers from the science and industry sectors also within the framework of DECHEMA A+C as (technology-) neutral discussion partners, offering in-depth methodological and industry knowledge.
