

INVITATION

The 5th **BIOTECH** Conference is a continuation of the well-known conference series held at ZHAW in Wädenswil until 2019. Now, the conference will succeed in a new venue in Freiburg / Breisgau (Germany) between June 16th and 18th, 2025.

As in previous years, we are aiming to stimulate interactions and collaborations between academia and industry in the field of single-use technologies for bio-based applications.

This time, focus areas of the conference will be:

- » bioprocess development and manufacture with single-use technology for biotherapeutics, cell- and gene therapeutics and cellular agricultural products
- » process analytical technologies for single-use devices
- » device features and facility design
- » materials and sustainability assessments

Aside of novel trends in established applications, we look also forward for contributions from fields, in which single-use technology as option is just evolving.

EXHIBITION

Exhibitors and **sponsors** are very welcome. To discuss the opportunities or book a package, please contact Andrea Köhl (details given below) and visit our website.

PAPER SUBMISSION

Please submit related presentations and posters at the latest by **17th January 2025!**

The abstract should explicitly mention objectives, new results and conclusions or significance of the work. Accepted abstracts will be published for all conference participants in a book of abstracts (PDF file).

Please note: registration fee cannot be waived for authors.

We are looking forward to welcome you in Freiburg in June 2025!
