
PUBLIKATIONSLISTE
Zeitschriftenartikel (*Korrespondierende/r Autorin/Autor)

- 2017** M. Aßmann, S. Gaßmeyer, C. Mügge, J. Enoki, L. Hilterhaus, R. Kourist, A. Liese*, **S. Kara***, Improvement of the process stability of arylmalonate decarboxylase by immobilization for biocatalytic profen synthesis, *Frontiers in Microbiology*, in Überarbeitung
- C. Scherkus, S. Schmidt, U.T. Bornscheuer, H. Gröger, **S. Kara**, A. Liese*, Kinetic insights into ϵ -caprolactone synthesis: improvement of an enzymatic cascade reaction, *Biotechnology and Bioengineering*, DOI: 10.1002/bit.26258
- 2016** L. Pesci, S. Glueck, K. Faber, A. Liese*, **S. Kara***, Route to the fragrance compound 4-ethylguaiaicol via a two-step chemo-enzymatic reaction sequence, *Organic Process Research & Development* 2016, DOI 10.1021/acs.oprd.6b00362
- M. Rauch, S. Schmidt, I.W.C.E. Arends, K. Oppelt, **S. Kara**, F. Hollmann*, Photocatalytic alcohol oxidation using LED light sources, *Green Chemistry* 2016, DOI 10.1039/C6GC02008A
- C. Scherkus, S. Schmidt, U.T. Bornscheuer, H. Gröger, **S. Kara**, A. Liese*, A fed-batch synthetic strategy for a multi-enzymatic synthesis of poly- ϵ -caprolactone, *ChemCatChem* 2016, DOI 10.1002/cctc.201600806
- L. Pesci, **S. Kara**, A. Liese*, Evaluation of the substrate scope of benzoic acid (de)carboxylases according to chemical and biochemical parameters, *ChemBioChem* 2016, 17, 1845–1850
- A. Bornadel, R. Hatti-Kaul, F. Hollmann, **S. Kara***, Enhancing the productivity of the bi-enzymatic convergent cascade for ϵ -caprolactone synthesis through design of experiments and a biphasic system, *Tetrahedron* 2016, 72, 7222–7228
- 2015** A. Bornadel, R. Hatti-Kaul, F. Hollmann, **S. Kara***, A bi-enzymatic convergent cascade for ϵ -caprolactone synthesis employing 1,6-hexanediol as a 'double-smart cosubstrate', *ChemCatChem* 2015, 7, 2442–2445
- S. Kara***, J.H. Schrittwieser, S. Gargiulo, Y. Ni, H. Yanase, D.J. Opperman, W.J.H. van Berkel, I.W.C.E. Arends, F. Hollmann*, Complete enzymatic oxidation of methanol to carbon dioxide: Towards more eco-efficient regeneration systems for reduced nicotinamide cofactors, *Advanced Synthesis & Catalysis* 2015, 357, 1687–1691, VIP Paper
- R. Zuhse, C. Leggewie, F. Hollmann, **S. Kara***, Scaling-up of 'smart cosubstrate' 1,4-butanediol promoted asymmetric reduction of ethyl-4,4,4-trifluoroacetoacetate in organic media, *Organic Process Research & Development* 2015, 19, 369–372
- M. Berheide, **S. Kara***, A. Liese*, Reversibility of asymmetric catalyzed C–C Bond formation by benzoylformate decarboxylase, *Catalysis Science & Technology* 2015, 5, 2418–2426, Hot Article

-
- A. Petrenz, P. Domínguez de María, A. Ramanathan, U. Hanefeld, M.B. Ansorge-Schumacher*, **S. Kara***, Medium and reaction engineering for the establishment of a chemo-enzymatic dynamic kinetic resolution of *rac*-benzoin in batch and continuous mode, *Journal of Molecular Catalysis B: Enzymatic* 2015, 14, 42–49
- 2014** S. Kochius, Y. Ni, **S. Kara**, S. Gargiulo, J. Schrader, D. Holtmann, F. Hollmann*, Light-accelerated biocatalytic oxidation reactions, *ChemPlusChem* 2014, 79, 1554–1557
- S. Kara***, D. Spickermann, A. Weckbecker, C. Leggewie, I.W.C.E. Arends, F. Hollmann*, Bioreductions catalyzed by an alcohol dehydrogenase in non-aqueous media, *ChemCatChem* 2014, 6, 973–976
- S. Bisagni*, B. Summers, **S. Kara**, R. Hatti-Kaul, G. Grogan, G. Mamo, F. Hollmann, Exploring the substrate specificity and enantioselectivity of a Baeyer-Villiger monooxygenase from *Dietzia* sp. D5: oxidation of sulfides and aldehydes, *Topics in Catalysis* 2014, 57, 366–375
- D. Spickermann, **S. Kara**, I. Barackov, F. Hollmann, U. Schwaneberg, P. Dünkermann, C. Leggewie*, Enzyme stabilization by additives under industrial relevant reaction conditions, *Journal of Molecular Catalysis B: Enzymatic* 2014, 103, 24–28
- 2013** **S. Kara**, D. Spickermann, J.H. Schrittwieser, A. Weckbecker, C. Leggewie, I.W.C.E. Arends, F. Hollmann*, Access to achiral/chiral lactones by *Horse Liver* Alcohol Dehydrogenase-catalyzed oxidation in two-liquid phase systems, *ACS Catalysis* 2013, 3, 2436–2439
- J.H. Schrittwieser*, F. Coccia, **S. Kara**, B. Grischek, W. Kroutil, N. d’Alessandro, F. Hollmann*, One-pot combination of enzyme and Pd nanoparticle catalysis for the synthesis of enantiomerically pure 1,2-amino alcohols, *Green Chemistry* 2013, 15, 3318–3331, *Hot Paper*
- S. Kara**, D. Spickermann, J.H. Schrittwieser, C. Leggewie, W.J.H. van Berkel, I.W.C.E. Arends, F. Hollmann*, More efficient redox biocatalysis by *utilising 1,4-butanediol as a ‘smart cosubstrate’*, *Green Chemistry* 2013, 15, 330–335, *Hot Paper*
- P. Könst, **S. Kara**, S. Kochius, D. Holtmann, I.W.C.E. Arends, R. Ludwig, F. Hollmann*, Expanding the scope of laccase-mediator systems *ChemCatChem* 2013, 5, 3027–3032
- 2012** P. Könst, H. Merckens, **S. Kara**, S. Kochius, A. Vogel, R. Zuhse, D. Holtmann, I.W.C.E. Arends, F. Hollmann*, Enantioselective oxidation of aldehydes catalyzed by alcohol dehydrogenase, *Angewandte Chemie (Int. Ed.)* 2012, 51, 9914–9917
- 2011** **S. Kara**, W.S. Long, M. Berheide, S. Peper, B. Niemeyer, A. Liese*, Influence of reaction conditions on the enantioselectivity of biocatalyzed C–C bond formations under high pressure conditions, *Journal of Biotechnology* 2011, 152, 87–92
- S. Peper, **S. Kara**, W.S. Long, A. Liese, B. Niemeyer*, Immobilization and characterization of benzoylformate decarboxylase from *Pseudomonas putida* on spherical silica, *Bioprocess and Biosystems Engineering* 2011, 34, 671–680

2010 **S. Kara**, F. Anton, D. Solle, M. Neumann, B. Hitzmann, T. Scheper, A. Liese*, Fluorescence spectroscopy as a novel method for online analysis of biocatalytic C–C bond formations, *Journal of Molecular Catalysis B: Enzymatic* 2010, 66, 124–129

M. Berheide, S. Peper, **S. Kara**, W. S. Long, S. Schenkel, B. Niemeyer, M. Pohl, A. Liese*, Influence of the hydrostatic pressure and pH on the asymmetric 2-hydroxy ketone formation catalyzed by *Pseudomonas putida* benzoylformate decarboxylase and variants thereof, *Biotechnology and Bioengineering* 2010, 106, 18–26

Buchkapitel

2016 **S. Kara*** and J. von Langermann, Prinzipien der angewandten Biokatalyse, In: Einführung in die Enzymtechnologie (Syldatk, C., Liese, A., Jaeger, K. eds.) Springer Verlag, im Druck.

L. Pesci, **S. Kara** and A. Liese*, Enzymkinetik, In: Einführung in die Enzymtechnologie (Syldatk, C., Liese, A., Jaeger, K. eds.) Springer Verlag, im Druck.

2013 **S. Kara**, J.H. Schrittwieser and F. Hollmann*, Strategies for cofactor regeneration in biocatalyzed reductions, In: Synthetic Methods for Biologically Active Molecules: Exploiting the Potential of Bioreductions (Brenna, E. eds.), pp. 209–238, Wiley-Blackwell, 2013
Print ISBN: 9783527333875, Online ISBN: 9783527665785
DOI: 10.1002/9783527665785.ch08

2010 **S. Kara** and A. Liese*, Enzymatic C–C bond formation, asymmetric, In: Encyclopedia of Industrial Biotechnology. Bioprocess, Bioseparation, and Cell Technology (Flickinger, M.C. eds.), 3, pp. 2034–2049, Wiley-VCH, 2010
ISBN-10: 0-471-79930-0, ISBN-13: 978-0-471-79930-6

Übersichtsartikel

2014 F. Hollmann* and **S. Kara**, Biokatalyse in unkonventionellen Reaktionsmedien, *BIOspektrum* 2014, 01, 100–102

S. Kara*, J.H. Schrittwieser, F. Hollmann, M.B. Ansorge-Schumacher*, Recent trends and novel concepts in cofactor-dependent biotransformations, *Applied Microbiology and Biotechnology* 2014, 98, 1517–1529

2011 **S. Kara**, J.J. Mueller, A. Liese*, Online analysis methods for monitoring of bioprocesses, *Chimicaoggi-Chemistry TODAY* 2011, 29, 38–41

Zeitschriftenartikel von Konferenzbeiträgen

2014 A. Petrenz, A. Ramanathan, P. Domínguez de María, U. Hanefeld, **S. Kara**, M.B. Ansorge-Schumacher*, Chemo-enzymatische heterogenkatalysierte Eintopfsynthese von enantiomerenreinem Benzoin, *Chemie Ingenieur Technik* 2014, 86(9), 1488

2009 **S. Kara***, Fluoreszenzspektroskopie als neue Methode für die Online-Analyse biokatalytischer C–C-Knüpfungsreaktionen, *Chemie Ingenieur Technik* 2009, 82(9), 1528–1529
