Delegate early	690 €
Student regular	530 €
Student early	480 €
Accompanying person	580 €

\*) No VAT requested according to § 4.22 UStG.

1) Personal members of DECHEMA and EFC/EFCE-passport bearers.

2) Proof of status required.

Early registration is only possible **until 15 August, 2012**.

The conference ticket includes 3 nights, welcome reception, conference dinner, all meals during the conference, coffee breaks, book of abstracts and a city tour.

### REGISTRATION

Please register online at [www.ESAT2012.com](http://www.ESAT2012.com)

In general there is no registration deadline as long as free capacity is available. Please note that registrations received after **15 September, 2012** may not appear in the list of participants. Confirmation of registration and the invoice will be sent after receipt of the registration.

Conference tickets, book of abstracts and list of participants will be available at the registration desk on site.

### PAYMENT

Fees should be remitted after the receipt of the invoice in favour of DECHEMA e. V. stating the invoice number and the name of the participant to one of the DECHEMA accounts as stated in the invoice. Payment by credit card is also possible.

### CANCELLATION

Registrations cancelled no later than 4 weeks before the conference begins will be entitled to a refund minus an administration charge of 30 €. Thereafter 80% of the conference fee will be charged. Only written cancellations, fax, post or e-mail) will be accepted. The effective date is the date of receipt. In case of non-attendance or drop-outs, the full conference fee is payable.

If the event is cancelled by DECHEMA e.V. the fees paid will be refunded. Further claims for compensation are excluded.

## INVITATION

## INVITATION

In the long tradition of the European Symposium on Applied Thermodynamics the ESAT 2012 will bring together once more researchers from all over the world who are interested, among other topics, in molecular and statistical thermodynamics, modeling and prediction of thermophysical properties of complex systems. The recent efforts in this field have resulted in models, methods, and tools that allow not only solving academic problems but also contribute substantially to industrial research and development.

The conference represents a unique opportunity to gain an overview of the state of research and its applications in the developing of engineering models.

Now the ESAT conference will come back to the Berlin region together with the Annual Meeting of ProcessNet and VDI GEU Working Parties on Thermodynamics. We are very confident that this exciting location is generating an inspiring experience for all participants.
