Technical Information

- **Size:** 0,85 m width and 1,2 m height (**DIN A 0**), vertically oriented as **printed poster** (No printing possible onsite)
- **Fixing material:** double-sided tape onsite available

Preparation of the Poster:

The **author's name and address** and the **title of the paper** are to be indicated on the top section of the poster.

As a major guideline it is proposed to make the poster intelligible in itself, even in the absence of the author. It is suggested to divide the contents of each poster into **introduction, results** and **conclusions**, with a summary listing the pertinent results and conclusions.

The poster should be legible from a distance of 2-3 meters.

Therefore, the **minimum size** should be:

- 20 cm for graphs;
- 3 cm for the paper's title and the names/addresses of the authors in the heading label;
- 1,5 cm for sections headings such as introduction, results, labeling of figures and tables;
- 0,8 cm characters in height for further text.

Line spacing: 1,1 cm at minimum; 10 of such lines correspond to one figure. Please use colours, symbols and schemes for improved clarity.

B) Short Poster Presentations Monday, 16 November 2026, 11:10 and 16:50

Please present your poster orally in a short poster introduction (**1 minute**, 1-2 slides, 16:9).

Poster numbers and time slots will be assigned and communicated in due time before the conference.

To ensure that everything runs smoothly, your slides will be uploaded to the presentation laptop in advance. **Please upload your slides as a PDF file to SharePoint [2026 PEMT Poster Presentation](#) by 09 November 2026** at the latest:
