WELCOME ADDRESS

The **European Adhesion Conference – EURADH** – is a well-known biennial meeting for scientists and engineers from Europe and throughout the world who have an interest in adhesion with respect to science and all purposes of application.

EURADH 2012 will take place in Friedrichshafen at Lake Constance and is organised by a joint scientific committee representing DECHEMA (Germany), the Société Française du Vide (France), the Society of Adhesion and Adhesives (United Kingdom), and the Adhesion Society in Spain.

Being the 9th conference of this series, EURADH 2012 will address all questions concerning the community working in research, development and application of adhesion phenomena and technology.

The conference programme provides a mix through the various fundamental themes and application areas of adhesion, highlighting the most promising directions of research and applications, while allowing for in-depth discussions.

The scenic location guarantees an environment of relaxed and open exchange beyond the usual reserve. There will be plenty of time to foster contacts and numerous opportunities for networking with major players in the field.

We look forward to meeting you in the beautiful city of Friedrichshafen!
